MULTI-SITE URBAN REGENERATION PROJECT IN JERICHO

OBJECTIVES

In order to boost economic development, the UPFI is working with Jericho Municipality to restore strategic installations connected to agricultural activities and tourism, the drivers of the local economy.

The relocation of facilities with a high urban nuisance factor into less residential zones will allow the development of municipal land in the city centre in order to expand public spaces open for all.

These interventions will bring about the revitalisation of those areas, benefiting commercial activities and local economic development.

The Project is one of the projects selected by the Urban Projects Finance Initiative (UPFI), which aims to promote and develop sustainable and innovative urban projects that serve as best practice examples and are potentially replicable.

BENEFICIARIES

The 50.000 inhabitants of the Jericho Governorate

LOCATION

- Jericho
PALESTINE

PROMOTER

Municipality of Jericho

TOTAL COST

€6.590.000

DURATION

Implementation: 2017-2019

ACTIONS

- A new slaughterhouse is planned outside the city, meeting health and environmental international standards.
- A new municipal garage is moving to the old location of the slaughterhouse.
- The space left emptied by the municipal garage allows the expansion of an existing garden, the Spanish Garden offering new green spaces open to all

EXPECTED RESULTS

Modernize, reorganize, and relocate public facilities with a high urban nuisance factor into less residential zones.

PARTNERS

- European Commission (EC)
- French Development Agency (AFD)

FUNDING

Own funding: 390.000€

Grant from the AFD: 6.200.000€ (under discussion)
