# COP 21, Paris

## L'alliance de Paris :

- Limit the global warming in 1,5°C or 2°C,
- Promote a sober development in carbone

## Civil society comitments :

- thematics days : forest, agriculture, fundings, cities innovation, oceans...
- half day water : 2 December

# Water : raising awareness about climate change

## From global to local impacts

- **Knowledge** : Explore 2070
  - Study : 2010 – 2012
  - Effects of the climate change in France in 2070
    - Flows decreasing : average 20 % - [+5 % - -60%]
    - Low-flows decreasing : average 30 %
- **Actions** :
  - Challenge : the time scale ; long term progressive change
  - How to take into account of uncertainties ?
  - How to create new projects : agricultural development, infrastructures...

→ ***The national climate change adaptation plan***

A guide to integrate climate change effects at national scale

# Towards the integration of CC in the river basin management plans

- Opportunities
  - Good scale for action,
  - A dialogue area,
  - Implementation of european directives
- Challenges :
  - Awareness = Increase knowledges
  - Economical challenges agriculture, transportation...
  - Environmental issues : Aquatic biodiversity, wetlands

# Articulations et initiatives

- Strengthen the knowledge,
- Decrease the imbalance needs/availability,
- Water savings : agriculture,
- Mobilise non conventional resources,
- Restore aquatic habitats

Rhône river basin : map of vulnerability to climate change

# Thank you for your attention !

## Merci de votre attention !
