Because of the laws of Jordan, as a registered international NGO, my organization can run programs and activities in Jordan, but the source of our funding is from abroad, and we do not have the right to fundraise in Jordan or to receive direct donations or payments for our activities in Jordan. **Answer:** Please see the answer to question nº 28.

**Question 49.** With reference to the Call for Proposal “UfM Grant Scheme for employment promotion - Regional response to the COVID-19 pandemic” we are looking for a clarification on ineligible costs. the CfPs guideline states that among the ineligible costs there are “costs declared by the beneficiary(ies) and financed by another action or work programme receiving a UfM grant;” (page 17). In the standard contract published on your website it is written that among inelgible costs there are “costs declared by the beneficiary(ies)and financed by another action or work programme receiving a European Union grant (including through the EuropeanDevelopment Fund);”. It isn’t clear if we can consider an EU funded project (DG NEAR) that we are implementing in the Mediterranean region as co-financing of a project proposal to be submitted to this specific CfPs. **(1) Could you please clarify if an EU grants can be considered as co-financing of this CfPs?** **(2) And at the same time, could you confirm that the present CfPs is funded by GIZ and not by the EU (so that a project granted by this CfPs could be considered as co-financing of a project funded by the EU)?

**Answer:**
   (1) The EU grants can be considered as a co-financing of this call for proposals
   (2) We confirm that the call for proposals is financially supported by GIZ, on behalf of the
Federal Ministry for Economic Cooperation and Development of Germany (BMZ), and not by the EU.

Question 51. We are a non-profit and non-governmental organization established in Istanbul, Turkey. We would like to apply for the “UfM Grant Scheme for Employment Promotion Regional response to the COVID-19 pandemic” but we would like to ask you a few questions beforehand.

(1) We are in the UfM eligible countries list, but not in the geographical scope for this grant. Can we still apply? If we want to include 2 other eligible institutions from other countries within the regional scope, can we apply as a lead applicant? If we do, would us being the lead applicant have any effect on our proposal’s favorability during the evaluation process?

Answer: The geographical scope of each action must encompass at least one MENA country of the UfM region. Priority will be given to regional actions (i.e. involving at least 3 of the UfM Member States), nevertheless, it does not prevent your organisation to apply if the action encompasses at least one MENA country of the UfM region (Algeria, Egypt, Jordan, Mauritania, Morocco, Palestine and Tunisia). If these conditions and eligibility requirements are met, the location of the lead applicant does not affect the evaluation of the proposal.

Question 53. (1) Is it appropriate if the project only targets women in Mena Countries & UfM Countries? (2) Due to being an online training and support program, there will be no physical space for our activities. In order for our platform to be accessible from countries in above mentioned regions, our platform and designed activities will be in Turkish, English, and most probably in Arabic. Since there will be no physical activity area, do we need to apply to a grant in collaboration with a co-applicant operating in one of the MENA countries in order to encompass the region? or would dissemination activities which will be held in targeted countries be sufficient? (3) In this respect, what is the role of the co-applicant? For example, is it appropriate for an NGO from MENA countries to organize part of the platform’s activities and disseminate the project in its own region? (4) What will be the share from the grant for the co-applicant? Is it determined according to budget or is there a limit? (5) Do we have to submit both the concept note and the full application documents on the 29th? (6) Can companies such as Google be a part of the key stakeholders as “Associates” or any other type of partner? (7) How many co-applicants can we have from Turkey with us as the lead applicant from Turkey, other than the 3 UfM region partners?

Answer:
1) Please see the answer to question nº 2 in regards of eligibility and, section 2.1.1 of the guidelines. Women are included in the vulnerable groups the Grant Scheme sets out to support.
2) The establishment in the UfM Region is determined on the basis of the organisation’s statutes, which should demonstrate that it has been established by an instrument governed by the national law of the country concerned and that its head office is located in an eligible country.” Please see the answer to question nº 9.
3) “Co-applicants participate in designing and implementing the action, and the costs they incur are eligible in the same way as those incurred by the lead applicant. Co-applicants must satisfy the eligibility criteria as applicable to the lead applicant himself. Co-applicants must sign the mandate in Part B Section 4 of the grant application form. If awarded the grant contract, the co-applicant(s) (if any) will become beneficiary(ies) in the action (together with the coordinator”).
4) The UfM does not interfere on how the beneficiary distributes the funds internally with the co-applicants and/or affiliated entities (if any).
5) Yes, both documents have to be submitted within the deadline.
6) Beware that your partners must satisfy the eligibility criteria as well.
7) Beware that co-applicants are not mandatory to apply for this grant and there is no limit of co-applicants either.

Question 54. (1) Is Turkey among the eligible countries? In this statement Turkey wasn’t mentioned. “The geographical scope of each action must encompass at least one MENA country of the UfM region (Algeria, Egypt, Jordan, Lebanon, Mauritania, Morocco, Palestine and Tunisia).” (2) As you might be aware of, CARE operates in more than 100 countries, including the MENA. It is mentioned that one lead can only submit one application. We are wondering if that means per country or per organization, so if Jordan submits as well, does this disqualify both of us? (3) The call for proposal indicates that fund matching is required (10%- 50%). Can you please elaborate more on this? What account for this matching fund requirement. E.g., resources and expertise could be counted?

Answer:
1) Yes Turkey is among eligible countries. The geographical scope of each action must encompass at least one MENA country of the UfM region. Priority will be given to regional actions (i.e. involving at least 3 of the UfM Member States), nevertheless, it does not prevent your organisation to apply if the action encompasses at least one MENA country of the UfM region (Algeria, Egypt, Jordan, Mauritania, Morocco, Palestine and Tunisia). If these conditions and eligibility requirements are met, the location of the lead applicant does not affect the evaluation of the proposal

2) a proposal could address one or more objectives/priorities mentioned in the call for proposals. The lead applicant may not submit more than one application under this call for proposals.

3) You can apply for funds between EUR100.000 and EUR300.000. For any grant requested under this call for proposals for an amount between EUR 100.000 and EUR 149.999: The grant can account for between 50% and 90% of the total eligible costs of the action.

Question 55. Regarding submission, in the Guidelines, it is mentioned that the concept note & full proposal alongside the supporting documents have to be submitted through one of 2 systems: post\private courier service and the other is by hand delivery. (1) the online submission, through the
mentioned procedures, is enough in our case. (2) I read the per diem document, and Palestine is not mentioned there, where to search about this issue? (3) regarding the referral number needed to submit the full proposal, I need clarification how to get the number?
