Network of UNESCO Chairs in Italy, professor University of Pisa

ALESSANDRO POLITI director Nato Defense College Foundation (remote)

CLAUDIO CAPPON SG Copeam (remote)

GIULIA GIORDANO, Director Mediterranean & Global Strategy – ECCO the Italian Climate
change think tank

Moderator: ROMANA FABRIZI, Anchor Rai Tg3

CONCEPT NOTE:

The Mediterranean, the cradle of civilization, and Italy, the center of gravity between the two shores of the Mare Nostrum, play a key role in spreading a culture of sustainability, a necessary premise for the fight against climate change. With the Network of UNESCO Chairs, specialized in the 17 goals of the UN 2030 Agenda, and the Ecco Foundation, promoter of climate change studies, an attempt will be made to draw a map of good practices by involving, through Copeam and Rai, also the audiovisual world.

DATE 21st November h 4.00 pm.
