

UNFCCC COP 27

Sharm El-Sheikh, Egypt

6 – 18 November 2022

The role played by Italy in the energy transition of the Mediterranean area

15 November 2022, 11.15 AM – 12.15 AM EET

Auditorium of the Mediterranean Pavilion, Blue Zone

The climate targets by a large number of Mediterranean countries imply an increase of the efforts in order to reduce greenhouse emissions.

The event will present the best ways to reach the ambitious targets set on renewables and energy efficiency, based on Italian experience. Speakers will also carry out an analysis of the opportunities for renewables in the African countries and on the role of Italy and Europe in supporting the green diffusion, also considering the impact on agriculture.

President of Session:

Dr. Eng. Gianni Silvestrini, Kyoto Club

The role played by Italy in the energy transition of the Mediterranean area

15 November 2022 | 11.15 – 12.15 AM EET |
Mediterranean Pavilion, Blue Zone

Moderator

Claudia Stamerra (*Radio1-Giornale Radio Rai*)

PROGRAMME

➤ 11.15 – 11.20 AM

Institutional video introduction and presentation of Ecomondo & Key Energy

Alessandra Astolfi (*Italian Exhibition Group – Global Exhibition Director*)

➤ 11:20 – 11.30 AM

Italy's Climate Targets

Dr. Eng. Gianni Silvestrini (*Kyoto Club – Scientific Director*)

➤ 11.30 – 11.40 AM

2030 Renewables Targets

Dr. Andrea Zaghi (*Elettricità Futura – General Director*)

➤ 11.40 – 11.50 AM

Energy Efficiency in Buildings

Dr. Eng. Mario Gamberale (*Kyoto Club – Chief Operating Officer*)

➤ 11.50 – 12.00 AM

Africa's Green Growth

Dr. Luca Traini (*RES4Africa Foundation – Access to energy Senior Program Manager*)

➤ 12.00 – 12.15 AM

Case studies from Italian Companies

A. Biancardi (*GSE – Director of Studies, System Monitoring and International Relations*)

A. Tolai Bartali (*Siemens Gamesa – Managing Director Italy*)

➤ 12.10 – 12.15 AM

Q&A Session
