Tenderers are expected to examine carefully and comply with all instructions, forms, contract provisions and specifications contained in this tender dossier. Failure to submit a tender containing all the required information and documentation within the deadline specified will lead to the rejection of the tender. No account can be taken of any remarks in the tender relating to the tender dossier; remarks may result in the immediate rejection of the tender without further evaluation.

These Instructions set out the rules for the submission, selection and implementation of contracts financed under this call for tenders, in conformity with the Practical Guide (available on the Internet at: <http://ec.europa.eu/europeaid/prag/document.do>).

**3 Participation**

- 3.1 Participation in tendering is open on equal terms to natural and legal persons (participating either individually or in a grouping (consortium) of tenderers), which are established in one of the Member States of the Union for the Mediterranean or in a country or territory authorised

by the EC Partnership Agreement under which the contract is financed<sup>1</sup>. Participation is also open to international organisations. The participation of an ineligible natural or legal person will result in the automatic exclusion of that person. In particular, if that ineligible person belongs to a consortium, the whole consortium will be excluded.

- 3.2 These terms refer to all nationals of the above states and to all legal entities, companies or partnerships effectively established in the above states. For the purposes of proving compliance with this rule, tenderers being legal persons, must present the documents required under that country's law.
- 3.3 The eligibility requirement detailed in subclauses 3.1 and 3.2 applies to all members of a joint venture/consortium and all subcontractors, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. Every tenderer, member of a joint venture/consortium, every capacity-providing entity, every subcontractor providing more than 10 % of the supplies must certify that they meet these conditions. They must prove their eligibility by a document dated less than one year earlier than the deadline for submitting tenders, drawn up in accordance with their national law or practice or by copies of the original documents stating the constitution and/or legal status and the place of registration and/or statutory seat and, if it is different, the place of central administration. The Contracting Authority may accept other satisfactory evidence that these conditions are met.
- 3.4 Natural or legal persons are not entitled to participate in this tender procedure or be awarded a contract if they are in any of the situations mentioned in Sections 2.3.3.1 or 2.3.3.2 of the Practical Guide. Should they do so, their tender will be considered unsuitable or irregular respectively. In the cases listed in Section 2.3.3.1 of the **Practical Guide** tenderers may also be excluded from EU financed procedures and be subject to financial penalties representing 2 % to 10 % of the total value of the contract in accordance with the conditions set in Section 2.3.4 of the **Practical Guide**. This information may be published on the Commission website in accordance with the conditions set in Section 2.3.4 of the Practical Guide. Tenderers must provide declarations that they are not in any of these exclusion situations. The declarations must cover all the members of a joint venture/consortium. Tenderers who make false declarations may also incur financial penalties and exclusion in accordance with section 2.3.4 of the Practical Guide. Their tender will be considered irregular.

The exclusion situations referred to above also apply to all members of a joint venture/consortium, all subcontractors and all suppliers to tenderers, as well as to all entities upon whose capacity the tenderer relies for the selection criteria. When requested by the Contracting Authority, tenderers/contractors must submit declarations from the intended subcontractors that they are not in any of the exclusion situations. In cases of doubt over declarations, the Contracting Authority will request documentary evidence that subcontractors are not in a situation that excludes them.

The exclusion situations referred to above also apply to subcontractors. When requested by the UfMS, tenderers/contractors must submit declarations from the intended subcontractors that they are not in any of the exclusion situations. In cases of doubt over declarations, UfMS will request documentary evidence that subcontractors are not in a situation that excludes

them.

- 3.5 To be eligible to take part in this tender procedure, tenderers must prove to the satisfaction of the UfMS that they comply with the necessary legal, technical and financial requirements and have the means to carry out the contract effectively.
- 3.6 Where tenders include subcontracting, it is recommended that the contractual arrangements between tenderers and their subcontractors include mediation, according to national and international practices, as a method of dispute resolution. Subcontracting is allowed. The total value of the sub-contracted part of the supplies must not exceed 30% of the contract value. All subcontracting must be approved by the UfMS, either by accepting the Contractor's offer, or, if proposed by the Contractor after contract signature, by prior written approval, being requested and granted.

#### **4 Origin**

- 4.1 All supplies under this contract may originate from any country.
- 4.2 When submitting tenders, tenderers must state expressly that all the goods meet the requirements concerning origin and must state the countries of origin. They may be asked to provide additional information in this connection.

Such requests and the responses to them must be made in writing. Tenderers that agree to do so will not be permitted to modify their tenders. If they refuse their participation in the tender procedure will be terminated. In case the contracting authority is required to obtain the recommendation of the panel referred to in section 2.3.3.1 of the Practical Guide, the contracting authority may, before the validity period expires, request an extension of the validity of the tenders up to the adoption of that recommendation.
- 8.3 The successful tenderer will be bound by its tender for a further period of 60 days. The further period is added to the validity period of the tender irrespective of the date of notification.

#### **9 Language of tenders**

- 9.1 The tenders, all correspondence and documents related to the tender exchanged by the tenderer and the UfMS must be written in the language of the procedure, which is English.

If the supporting documents are not written in one of the official languages of the European Union, a translation into the language of the call for tender must be attached. Where the documents are in an official language of the European Union other than English, it is strongly recommended to provide a translation into English, to facilitate evaluation of the documents.

For all the documents of this call for tender, if there are discrepancies between the different linguistic versions, the English one prevails.

## 17 Ownership of tenders

## 18 Joint-venture or consortium

- 18.1 If a tenderer is a joint venture or consortium of two or more persons, the tender must be a single one with the object of securing a single contract, each person must sign the tender and will be jointly and severally liable for the tender and any contract. Those persons must designate one of their members to act as leader with authority to bind the joint venture or consortium. The composition of the joint venture or consortium must not be altered without the prior written consent of the UfMS.
- 18.2 The tender may be signed by the representative of the joint venture or consortium only if it has been expressly so authorised in writing by the members of the joint venture or consortium, and the authorising contract, notarial act or deed must be submitted to the UfMS in accordance with point 11 of these Instructions to Tenderers. All signatures to the authorising instrument must be certified in accordance with the national laws and regulations of each party comprising the joint venture or consortium together with the powers of attorney establishing, in writing, that the signatories to the tender are empowered to enter into commitments on behalf of the members of the joint venture or consortium. Each member of such joint venture or consortium must provide the proof required under Article 3.5 as if it, itself, were the tenderer.

## 19 Opening of tenders

- 19.1 The opening and examination of tenders is for the purpose of checking whether the tenders are complete, whether the requisite tender guarantees have been furnished, whether the required documents have been properly included and whether the tenders are generally in order.
- 19.2 The tenders will be opened in public session on **09/07/2018 at 16 hours (Barcelona Time)** by the committee appointed for the purpose. The committee will draw up minutes of the meeting, which will be available on request. Each tender may be represented at the opening of tenders by one person. **For security reasons, the name, surname and ID of the person attending the opening must be notified by e-mail ([procurement@ufmsecretariat.org](mailto:procurement@ufmsecretariat.org)) at least five working days prior to the opening session.**
- 19.3 At the tender opening, the tenderers' names, the tender prices, any discount offered, written notifications of alteration and withdrawal, the presence of the requisite tender guarantee (if required) and such other information as the UfMS may consider appropriate may be announced.
- 19.4 After the public opening of the tenders, no information relating to the examination, clarification, evaluation and comparison of tenders, or recommendations concerning the award of the contract can be disclosed until after the contract has been awarded.
- 19.5 Any attempt by tenderers to influence the evaluation committee in the process of

examination, clarification, evaluation and comparison of tenders, to obtain information on how the procedure is progressing or to influence the UfMS in its decision concerning the award of the contract will result in the immediate rejection of their tenders.

- 19.6 All tenders received after the deadline for submission specified in the contract notice or these instructions will be kept by the UfMS. No liability can be accepted for late delivery of tenders. Late tenders will be rejected and will not be evaluated.

## **20 Evaluation of tenders**

### **20.1 Examination of the administrative conformity of tenders.**

The aim at this stage is to check that tenders comply with the essential requirements of the tender dossier. A tender is deemed to comply if it satisfies all the conditions, procedures and specifications in the tender dossier without substantially departing from or attaching restrictions to them.

Substantial departures or restrictions are those which affect the scope, quality or execution of the contract, differ widely from the terms of the tender dossier, limit the rights of the Contracting Authority or the tenderer's obligations under the contract or distort competition for tenderers whose tenders do comply. Decisions to the effect that a tender is not administratively compliant must be duly justified in the evaluation minutes.

If a tender does not comply with the tender dossier, it will be rejected immediately and may not subsequently be made to comply by correcting it or withdrawing the departure or restriction.

### **20.2 Technical evaluation**

After analysing the tenders deemed to comply in administrative terms, the evaluation committee will rule on the technical admissibility of each tender, classifying it as technically compliant or non-compliant.

The minimum qualifications required (see selection criteria in Contract notice point 16) are to be evaluated at the start of this stage.

Where contracts include after-sales service and/or training, the technical quality of such services will also be evaluated by using yes/no criteria as specified in the tender dossier.

- 20.3 In the interests of transparency and equal treatment and to facilitate the examination and evaluation of tenders, the evaluation committee may ask each tenderer individually for clarification of its tender including breakdowns of prices, within a reasonable time limit to be fixed by the evaluation committee. The request for clarification and the response must be in writing, but no change in the price or substance of the tender may be sought, offered or permitted except as required to confirm the correction of arithmetical errors discovered during the evaluation of tenders pursuant to Article 20.4. Any such request for clarification must not distort competition. Decisions to the effect that a tender is not technically compliant must be duly justified in the evaluation minutes.

### **20.4 Financial evaluation**

- a) Tenders found to be technically compliant will be checked for any arithmetical errors in computation and summation. Errors will be corrected by the evaluation committee as follows:
- where there is a discrepancy between amounts in figures and in words, the amount in words will be the amount taken into account;

- except for lump-sum contracts, where there is a discrepancy between a unit price and the total amount derived from the multiplication of the unit price and the quantity, the unit price as quoted will be the price taken into account.
- b) Amounts corrected in this way will be binding on the tenderer. If the tenderer does not accept them, its tender will be rejected.
- c) Unless specified otherwise, the purpose of the financial evaluation process is to identify the tenderer offering the lowest price. Where specified in the technical specifications, the evaluation of tenders may take into account not only the acquisition costs but, to the extent relevant, costs borne over the life cycle of the supplies (such as for instance maintenance costs and operating costs), in line with the technical specifications. In such case, the Contracting Authority will examine in detail all the information supplied by the tenderers and will formulate its judgment on the basis of the lowest total cost, including additional costs.

#### 20.5 Variant solutions

Variant solutions will not be taken into consideration.

#### 20.6 Award criteria

The sole award criterion will be the Price. The contract will be awarded to the lowest compliant tender.

10

### 21 Signature of the contract and performance guarantee

- 21.1 The successful tenderer will be informed in writing that its tender has been accepted (notification of award). Before the UfMS signs the contract with the successful tenderer, the successful tenderer must provide the **documentary proof** or statements required under the law of the country in which the company (or each of the companies in case of a consortium) is effectively established, to show that it is not in any of the exclusion situations listed in section 2.3.3 of the Practical Guide. This evidence or these documents or statements must carry a date, not earlier than one year before the date of submission of the tender. In addition, a statement must be provided that the situations described in these documents have not changed since then.
- 21.2 The successful tenderer must also provide evidence of financial and economic standing and technical and professional capacity according to the selection criteria for this call for tenders specified in the contract notice, point 16. The documentary proofs required are listed in section 2.4.11 of the Practical Guide.
- 21.3 If the successful tenderer fails to provide the documentary proof or statement or the evidence of financial and economic standing and technical and professional capacity within 15 calendar days following the notification of award or if the successful tenderer is found to have provided false information, the award will be considered null and void. In such a case, the UfMS may award the tender to the next lowest tenderer or cancel the tender procedure.
- The Contracting Authority may waive the obligation of any candidate or tenderer to submit the documentary evidence referred to above if such evidence has already been submitted for the purposes of another procurement procedure, provided that the issue date of the documents does not exceed one year and that they are still valid. In this case, the candidate or tenderer must declare on his/her honour that the documentary evidence has already been provided in a previous procurement procedure and confirm that his/her situation has not changed.

By submitting a tender, each tenderer accepts to receive notification of the outcome of the procedure by electronic means. Such notification shall be deemed to have been received on the date upon which the contracting authority sends it to the electronic address referred to in the offer.

- 21.4 The Contracting Authority reserves the right to vary quantities specified in the tender by +/- 100% at the time of contracting and during the validity of the contract. The total value of the supplies may not, as a result of the variation rise or fall by more than 25% of the original financial offer in the tender. The unit prices quoted in the tender shall be used.
- 21.5 Within 15 days of receipt of the contract signed by the UfMS, the selected tenderer must sign and date the contract and return it, with the performance guarantee (if applicable), to the UfMS. On signing the contract, the successful tenderer will become the Contractor and the contract will enter into force.
- 21.6 If it fails to sign and return the contract and any financial guarantee required within 15 days after receipt of notification, the UfMS may consider the acceptance of the tender to be cancelled without prejudice to the UfMS's right to seize the guarantee, claim compensation or pursue any other remedy in respect of such failure, and the successful tenderer will have no claim whatsoever on the UfMS. In such a case, the UfMS may award the tender to next lowest tenderer or cancel the tender procedure. The other tenderers will be informed that their tenders were not accepted, by means of a standard letter, which includes an indication of the relative weaknesses of their tender by way of a comparative table of the scores for the winning tender and the ones for the unsuccessful tender. The corresponding contract award notice will be published on the UfMS website: <http://www.ufmsecretariat.org/en/contact/>

## **22 Tender guarantee**

No tender guarantee is required.

## **23 Ethics clauses**

- 23.1 Any attempt by a candidate or tenderer to obtain confidential information, enter into unlawful agreements with competitors or influence the committee or the UfMS during the process of examining, clarifying, evaluating and comparing tenders will lead to the rejection of their candidacy or tender and may result in administrative penalties.
- 23.2 Without the UfMS's prior written authorisation, a Contractor and its staff or any other company with which the Contractor is associated or linked may not, even on an ancillary or subcontracting basis, supply other services, carry out works or supply equipment for the project. This prohibition also applies to any other projects that could, owing to the nature of the contract, give rise to a conflict of interest on the part of the Contractor.
- 23.3 When submitting a tender, tenderers must declare that they are not affected by a conflict of interest and have no equivalent relation in that respect with other tenderers or parties involved in the project. Should such a situation arise during execution of the contract, the Contractor must immediately inform the UfMS.
- 23.4 Contractors must at all times act impartially and as faithful advisers in accordance with the code of conduct of their profession. They will refrain from making public statements about the project or services without the UfMS's prior approval. They may not commit the UfMS in any way without its prior written consent.
- 23.5 For the duration of the contracts Contractors and their staff must respect human rights and

undertake not to offend the political, cultural and religious mores of the beneficiary state. In particular and in accordance with the legal basic act concerned, tenderers that have been awarded contracts must abide by core labour standards as defined in the relevant International Labour Organisation conventions (such as the Conventions on freedom of association and collective bargaining; Abolition of forced and compulsory labour; Elimination of forced and compulsory labour; Abolition of child labour).

- 23.6 Contractors may accept no payment connected with the contracts other than that provided for therein. Contractors and their staff must not exercise any activity nor receive any advantage inconsistent with their obligations to the UfMS.
- 23.7 Contractors and their staff are obliged to maintain professional secrecy for the entire duration of contracts and after their completion. All reports and documents drawn up or received by Contractors will be confidential.
- 23.8 The contract governs the Contracting Parties' use of all reports and documents drawn up, received or presented by them during the implementation of the contract.
- 23.9 Contractors must refrain from any relationship likely to compromise their independence or that of their staff. If the Contractor ceases to be independent, the UfMS may, regardless of injury, terminate the contract without further notice and without the Contractor having any claim to compensation.
- 23.10 The Commission reserves the right to suspend or cancel project financing if corrupt practices of any kind are discovered at any stage of the award process and if the UfMS fails to take all appropriate measures to remedy the situation. For the purposes of this provision, 'corrupt practices' are the offer of a bribe, gift, gratuity or commission to any person as an inducement or reward for performing or refraining from any act relating to the award of a contract or implementation of a contract already concluded with the UfMS.
- 23.11 All tenders will be rejected or contracts terminated if it emerges that the award or implementation of a contract has given rise to unusual commercial expenses. Such unusual commercial expenses are commissions not mentioned in the main contract or not stemming from a properly concluded contract referring to the main contract, commissions not paid in return for any actual and legitimate service, commissions remitted to a tax haven, commissions paid to a recipient who is not clearly identified or commissions paid to a company which has any appearance of being a front company.
- 23.12 Contractors found to have paid unusual commercial expenses on projects funded by the EU are liable, depending on the seriousness of the facts observed, to have their contracts terminated or to be permanently excluded from receiving EU funds.
- 23.13 The UfMS reserves the right to suspend or cancel the procedure, if the award procedure proves to have been subject to substantial errors, irregularities or fraud. Where such substantial errors, irregularities or fraud are discovered after the award of the Contract, the UfMS may refrain from concluding the Contract.

## **24 Cancellation of the tender procedure**

If a tender procedure is cancelled, tenderers will be notified by the Contracting Authority. If the tender procedure is cancelled before the tender opening session the sealed envelopes will be returned, unopened, to the tenderers.

Cancellation may occur, for example, if:

- the tender procedure has been unsuccessful, namely where no suitable, qualitatively or financially acceptable tender has been received or there has been no valid response at all
- the economic or technical parameters of the project have changed fundamentally
- exceptional circumstances or force majeure render normal implementation of the project impossible
- all technically acceptable tenders exceed the financial resources available
- there have been substantial errors, irregularities or frauds in the procedure, in particular where these have prevented fair competition
- the award is not in compliance with sound financial management, i.e. does not respect the principles of economy, efficiency and effectiveness (e.g. the price proposed by the tenderer to whom the contract is to be awarded is objectively disproportionate with regard to the price of the market

**In no event shall the UfMS be liable for any damages whatsoever including, without limitation, damages for loss of profits, in any way connected with the cancellation of a tender procedure even if the UfMS has been advised of the possibility of damages. The publication of a procurement notice does not commit the UfMS to implement the contract announced.**

## 25 Appeals

Tenderers believing that they have been harmed by an error or irregularity during the award process may petition the UfMS directly. The UfMS must reply within 30 days of receipt of the complaint. This is without prejudice to the arbitration proceedings and, in particular, without altering the time-limits for bringing actions set out below, which could be undertaken by such tenderers. Therefore, tenderers believing that they have been harmed by an error or irregularity during the award process shall be referred for arbitration to the Tribunal Arbitral de Barcelona (TAB) [Barcelona Arbitration Court], of the Associació Catalana per a l'Arbitratge [Catalan Arbitration Association] - by whatever name it may be known in the future –, which is entrusted with the appointment of the arbitrator or arbitrators and the administration of the arbitration in accordance with its Regulations in force at the start of the arbitration.

The measures provided for in this section shall be instituted within two months of the publication of the measure, or of its notification to the plaintiff, or, in the absence thereof, of the day on which it came to the knowledge of the latter, as the case may be.
