

Director of the Office of Technology Transfer and Career Development

Euro-Mediterranean University of Fez-Morocco (UEMF)

Job description:

Euro-Mediterranean University of Fez is recruiting the Director of the Office of Technology Transfer and Career Development.

Position:

You will oversee the functions relating to the management of activities that promote research, innovation and transfer of knowledge, know-how and technologies developed by the Euro-Mediterranean University of Fez. You will also oversee the implementation of the UEMF strategy concerning the employability of its students and laureates. You will therefore be responsible for:

- the negotiation, drafting and management of research contracts, funds, and licenses;
- the protection and promotion of research results;
- putting together research projects and fund-raising for these projects;
- researching of all funding sources;
- attracting the socio-economic world to the University
- attracting companies operating in the field of innovation to develop strategic partnerships with the University and install their laboratories in the area dedicated for this purpose;
- setting up subsidiaries for research promotion and management thereof;
- the creation of innovative companies based on the promotion of the intellectual property rights of the university
- contributing to the internship placement and professional integration of the graduates of the University.

Skills and profile sought:

You are an engineer who holds a doctoral degree and an MBA and have worked in a department with similar tasks to those of the Office of Technology Transfer and Career Development for at least five years.

You speak at least two languages, including English and your mother tongue.
