LOGISMED Training Activities (LOGISMED-TA):
reinforcing transport in the Mediterranean

The center of political, social and economic developments in the Mediterranean region is developing concrete training activities and national awareness drives.

With its ability to adapt and absorb knowledge, the project aims at:
- improving the teamwork environment among logistics personnel and managers;
- increasing the performance of the logistics sector in the Mediterranean region;
- contributing to the creation of logistics networks and efficient coordination within the Mediterranean region.

LOGISMED-TA will reinforce the transport sector and will enhance the competitiveness of the logistics in the region, complementing existing training programmes and supporting the Mediterranean partners in their efforts to improve the qualifications of the personnel in the sector.
