Grow your business with young talents

Planning new developments in Algeria, Egypt, France, Greece, Italy, Lebanon, Morocco, Spain, Tunisia... ?

HOMERe is an intra-Mediterranean Internship Mobility scheme offering companies in search of new business perspectives a unique opportunity for sourcing young talents from the Euro-mediterranean region to become their interns.

Join the HOMERe programme and reach out to highly qualified and committed students in their last year of study from more than 100 top universities from both rims of the Mediterranean.

Added-value for your company:

- Youth perspectives on your business processes
- Additional cultural understanding and language skills
- Knowledge of local markets
- Most updated technical skills
- Increased visibility towards universities from the region

This programme really helps young people to change their attitude towards work to a more pro-active approach and helps companies to identify high-quality candidates. It was also a key accelerator of my early career development.
