

Joint Plastic Busters workshop on creating synergies for consolidating the fight against marine litter in the Mediterranean Region

November 14th, 2019

Palau de Pedralbes

Calle Pere Duran Farell, 11 - 08034 Barcelona, Spain

Barcelona (Spain)

Background and workshop rationale

The Joint Plastic Busters workshop on creating synergies for consolidating the fight against marine litter in the Mediterranean aims to provide a concrete opportunity to the Interreg Med Plastic Busters MPAs project and the ENI CBC Med COMMON project, to get together and fully explore the potential for synergies towards ensuring aligned and synchronized marine litter activities throughout the Mediterranean. By bringing together other key players and projects from both the North and the South of the region, this workshop aims to set the basis for further operational synergies, dynamic cross-fertilization and capitalization processes in order to consolidate the fight against marine litter in the region.
