**SELECTION AND AWARD CRITERIA**

**15. Selection criteria**

Capacity-providing entities

An economic operator (i.e., tenderer) may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. If the economic operator relies on other entities, it must in that case prove to the contracting authority that it will have at its disposal the resources necessary for the performance of the contract by producing a commitment by those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in a separate document. Proof of the capacity will also have to be provided when requested by the contracting authority.

With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the economic operator relies, become jointly and severally liable for the performance of the contract.

The following selection criteria will be applied to tenderers. In the case of tender submitted by a consortium, these selection criteria will be applied to the consortium as a whole if not specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors.

The tenderer shall not use previous experience which caused breach of contract and termination by a contracting authority as a reference for selection criteria.

- 2) **Professional capacity** (based on item 3.B of the tender form). The reference period which will be taken into account will be the last 3 years preceding the submission deadline.
  - The firm is a member of a national accounting or auditing body or institution which in turn is member of the International Federation of Accountants (IFAC).

- 3) **Technical capacity** (based on items 3.C of the tender form). The reference period which will be taken into account will be the last 3 years from submission deadline.

Only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (statement or certificate from the entity which awarded the contract, proof of payment) also detailing its value. If a tenderer has implemented the project in a consortium, the percentage that the tenderer has successfully completed must be clear from the documentary evidence, together with a description of the nature of the services provided/supplies delivered if the selection criteria relating to the pertinence of the experience have been used.
